CAREER OBJECTIVE

I am a upcoming software developer and I want to work in a fast-growing dynamic organization where my professional, Technical and intellectual skills could be applied and enhanced.

EDUCATION

Course/Degree	Institution	Board/University	Percentage of marks	Year of Passing
Bachelor of Technology (Information Technology)	Easwari Engineering College	Anna University	8.7(CGPA)	2021
HSC	Sri Sankara Matriculation Higher Secondary School	State Board	94.75	2017
SSLC	Kumara Rajah Muthiah Higher Secondary School	State Board	96	2015

WORK EXPERIENCE

Name of the Company	Role	Experience
Wipro	Project Engineer	8 months (27-07-2021 to till date)

PROJECTS EXPERIENCE

1. **Finacle oracle upgrade project** - In this project after oracle upgradation, need to check each and every functionality behavior to analysis their working after upgradation. If anything, not working properly, we raise **JIRA** to fix that same

2. **Dormancy Account regulation** - In this project , we need to work and execute the test cases based on the account status of the customer (active, inactive, Dormant). Also worked in database to update the query as we need to execute the test cases. It is an end to end process. From active to how the find was transferred to National Bank as a MT103 message format .In this project , executed 500 test cases. Will raise **Jira** to fix any error.

3. **Canada Swift Regulation** : In this project ,If user tries to send a money to Canada from any other countries Beneficiary address line 1 must be not null and contains a maximum of 27 characters. Validation is applicable in Finacle ,BPM ,Digital banking System. Will raise **Jira** to fix any error.

4. I have good knowledge on test case design and test case execution. In Canada swift Regulation project, I have done the entire test design.

5. Good Knowledge on Jira Platform.

CO-CURRICULAR ACTIVITIES

- Attended a value added course on Artificial Intelligence at Easwari Engineering College.
- Attended a webinar about how to apply JAVA in real World Application

CORE COMPETENCIES

- Languages known : C++, JAVA, Python, HTML, CSS, Bootstrap
- Area of interest   : API , Artificial Intelligence, Machine Learning
- Database   :SQL

- Completed **MuleSoft Certified Developer (MCD LEVEL 1)** from official MuleSoft website.
- C++ Certification in **Eye Open Technologies**
- Completed Basics of **HTML , CSS & Bootstrap** in Udemy platform.
- Completed 100+ problem in **Leet-Code platform** related to Data structure

GENERAL SKILLS

- Adaptable to any situation.
- Ability to learn from mistake.
- Good at grasping new things.
- Willingness to learn new things.

PROJECT DETAILS

1. **Title** : **AUTOMATIC THEFT DETECTION IN ATM USING ARTIFICIAL INTELLIGENCE**
   Software : MATLAB
   Description : The main Objective of the project is to detect the theft activities in the ATM machine. The modules we built are Face detection, camera covering and Multiple collision

2. **Title** : **VOTING APP**
   Software : VS Code
   Languages Used: HTML, CSS, Bootstrap and JavaScript
   Description : The main concept of this project was inspired from College election .In college , they used to conduct an election on every year . I have taken that concept and made as a project. In that, totally there are 3 pages. In Each page, need to select a participant to proceed forward. In you click next button without selecting, it will give an alert. On final page, we can able to see the participants image that you have selected on the last three pages.

   Completed positive and negative validation in that.

3. **Title** :**Remainder Email Generator**
   Software : VS Code
   Languages Used: HTML, CSS, Bootstrap JavaScript and Node JS
   Description : In every office , we have Tracker that used to track our in and out time but currently many of the people are in Work from home .To track the same , they are using an excel sheet to update our login time by manually .But many of them forgot to update that due to many reasons. So I have developed a code that used to send a remainder mail to people's whoever not updated the login time in Daily-Tracker excel sheet. I also made that **Dynamic**. Logs will be generated whenever that program executes with file name as current date and time.
   Currently it is working condition for my team.

PERSONAL DETAILS

Name : **Ragul S**

Father's Name : Sankar V

Date of Birth :17-01-2000

Languages Known : English, Tamil

Permanent Address: No. M 8/ 12 , Ishwarya colony, Indira Nagar, Adyar, Chennai-600020

DECLARATION

I hereby declare that the above information given above is true and correct to the best of my Knowledge .

Place: Chennai   **Yours Sincerely,**

Date :   **(S.RAGUL)**
